RELEASE NOTES

v0.1 2008-12-12

Inital Version

v0.2 2008-12-16

- Added a JavaScript/ExtendScript version for Windows

- Added the display of the number of groups

- Changed the prompt display slightly.

This will be turned into statistical display in a future version, like,
for example the number of a type in the selection (path items, text items etc.),
the percentage of objects total, percentage of types total etc…
This basically has a "if and when I have time" status.
